Arleth Goes High-Tech to Reduce COVID-19 Exposure

Dear Parent/Guardians,

Arleth Elementary School is taking many new steps to ensure a safe environment for students and staff. One of these steps is to identify symptomatic individuals before they enter a school bus or building.

To make this possible, Arleth Elementary School is activating a "Daily Health Screening" feature in the OnCourse Connect portal for parents and guardians. Each morning before school, guardians must log into OnCourse from a computer or smartphone to complete a quick health screening of their students. If they receive a green "Approved" indicator, their student may board the school bus and enter the building. If they receive a red "Not Approved" indicator, the district asks that the student does *not* report to school and contact the office for next steps.

Teachers, administrators, and school staff members will also complete this health screening each day before entering campus buildings or transportation.

With this screening system in place, trained staff will have a fast and confidential way to monitor symptomatic/exposed households and help students protect themselves and their peers. However, for this system to be successful, every student and guardian must participate consistently and honestly. We are asking you to complete this screening before 8:30 a.m. every day. Students will not be permitted to attend class if this screening is not complete.

Please see the step-by-step directions attached.

Sincerely,

Robert Preston
Principal
Arleth Elementary School

Daily Health Screening for Guardians

The Daily Health Screening application allows guardians to monitor the health symptoms of their children. This guide provides step-by-step instructions.

_____

https://www.oncourseconnect.com/

If you do not know your username and password, email parent.portal@sayrevillek12.net

Upon logging into OnCourse Connect you will automatically see the Health Screening form (shown below.) Here you have the option to complete or skip the screening form.

You must complete this form daily. Please do not skip this step.*

1. Review the *Symptoms* and *Exposure* forms with your child and check any boxes that apply.
2. Check the box next to the *confirmation statement* ("I confirm that my...") to activate the Submit button.
3. Press the **Submit** button.

*If you have multiple children in the district, you will automatically be taken to a Health Screening form for the second child.
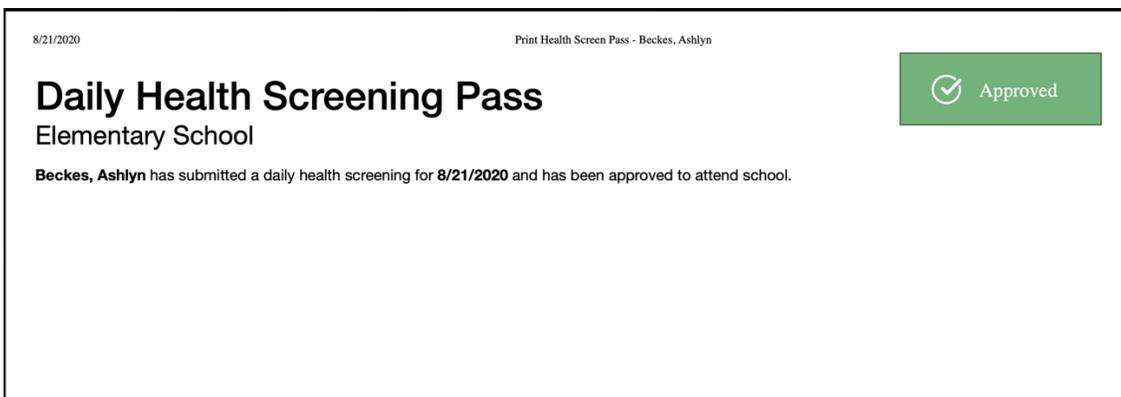

If your child has been approved, you will see this banner. If your district requires the use of an entry pass, click the **Show Pass** button.
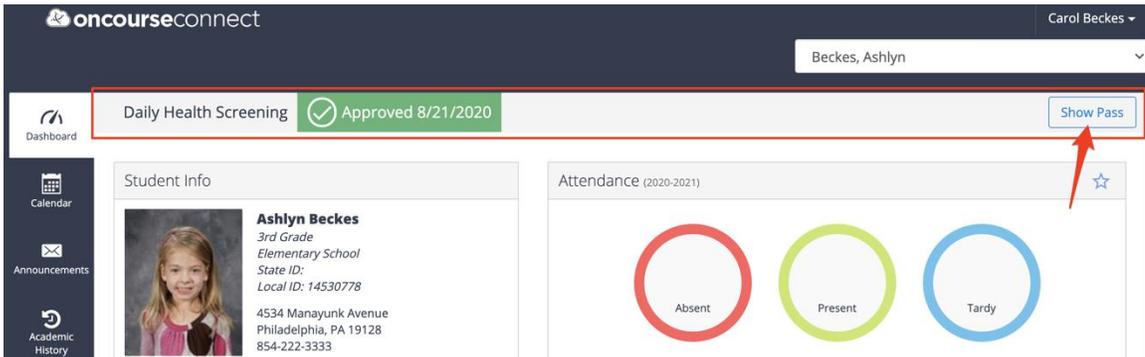

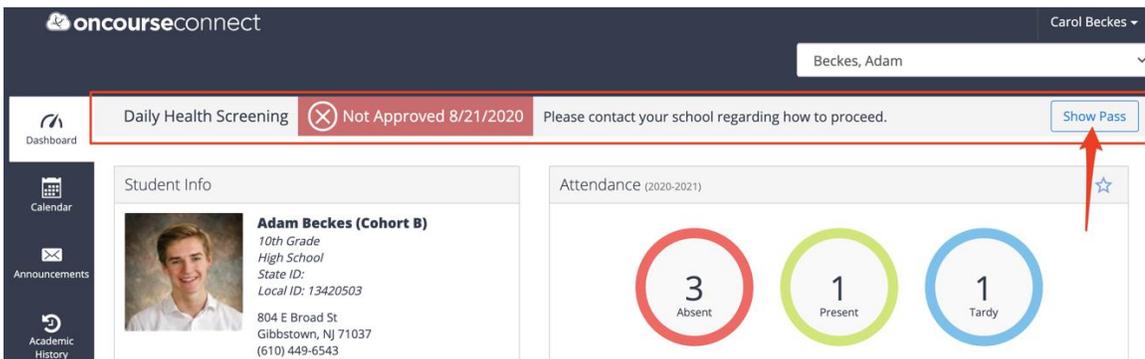

The entry pass will look like this. The pass can be printed, or a screenshot can be taken.
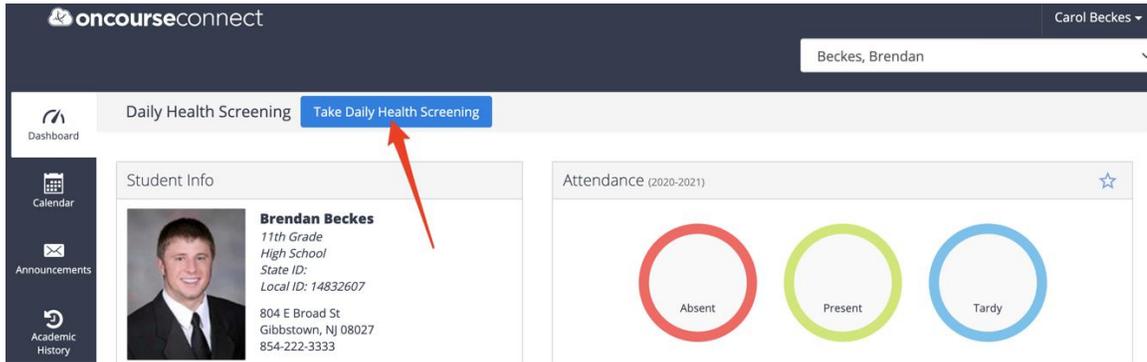

If your child has not been approved, you will see this banner and will be able to view a "Not Approved" pass by clicking the Show Pass button.

5 (Optional)

If you skipped the form in Step 1, you will be taken into your student's OnCourse account. Here you will see the **Take Daily Health Screening Survey** button which can be selected to re-launch the Health Screening Survey.

*If you need to make changes a submission, please contact your school.
